

Project: Salt Lake County Transitional Refugee Housing

Recipient: Salt Lake County

Location: Salt Lake County, Utah

Purpose: The requested funds will be used to assist Salt Lake County in their effort to renovate or build multi-family housing for new mixed-use housing facilities in an effort to reduce the current housing shortage. In addition to providing the necessity of shelter, the County will provide families with basic concepts of managing and maintaining rental housing which includes lease negotiations, monthly rental responsibilities, sanitation and the proper use of appliances. The County currently has a one-year waiting list of 100 families who desperately need housing, and the properties created from this project will serve the County's citizens in need of affordable housing, specifically the large refugee population.

Amount: \$1,000,000
